Who we are?

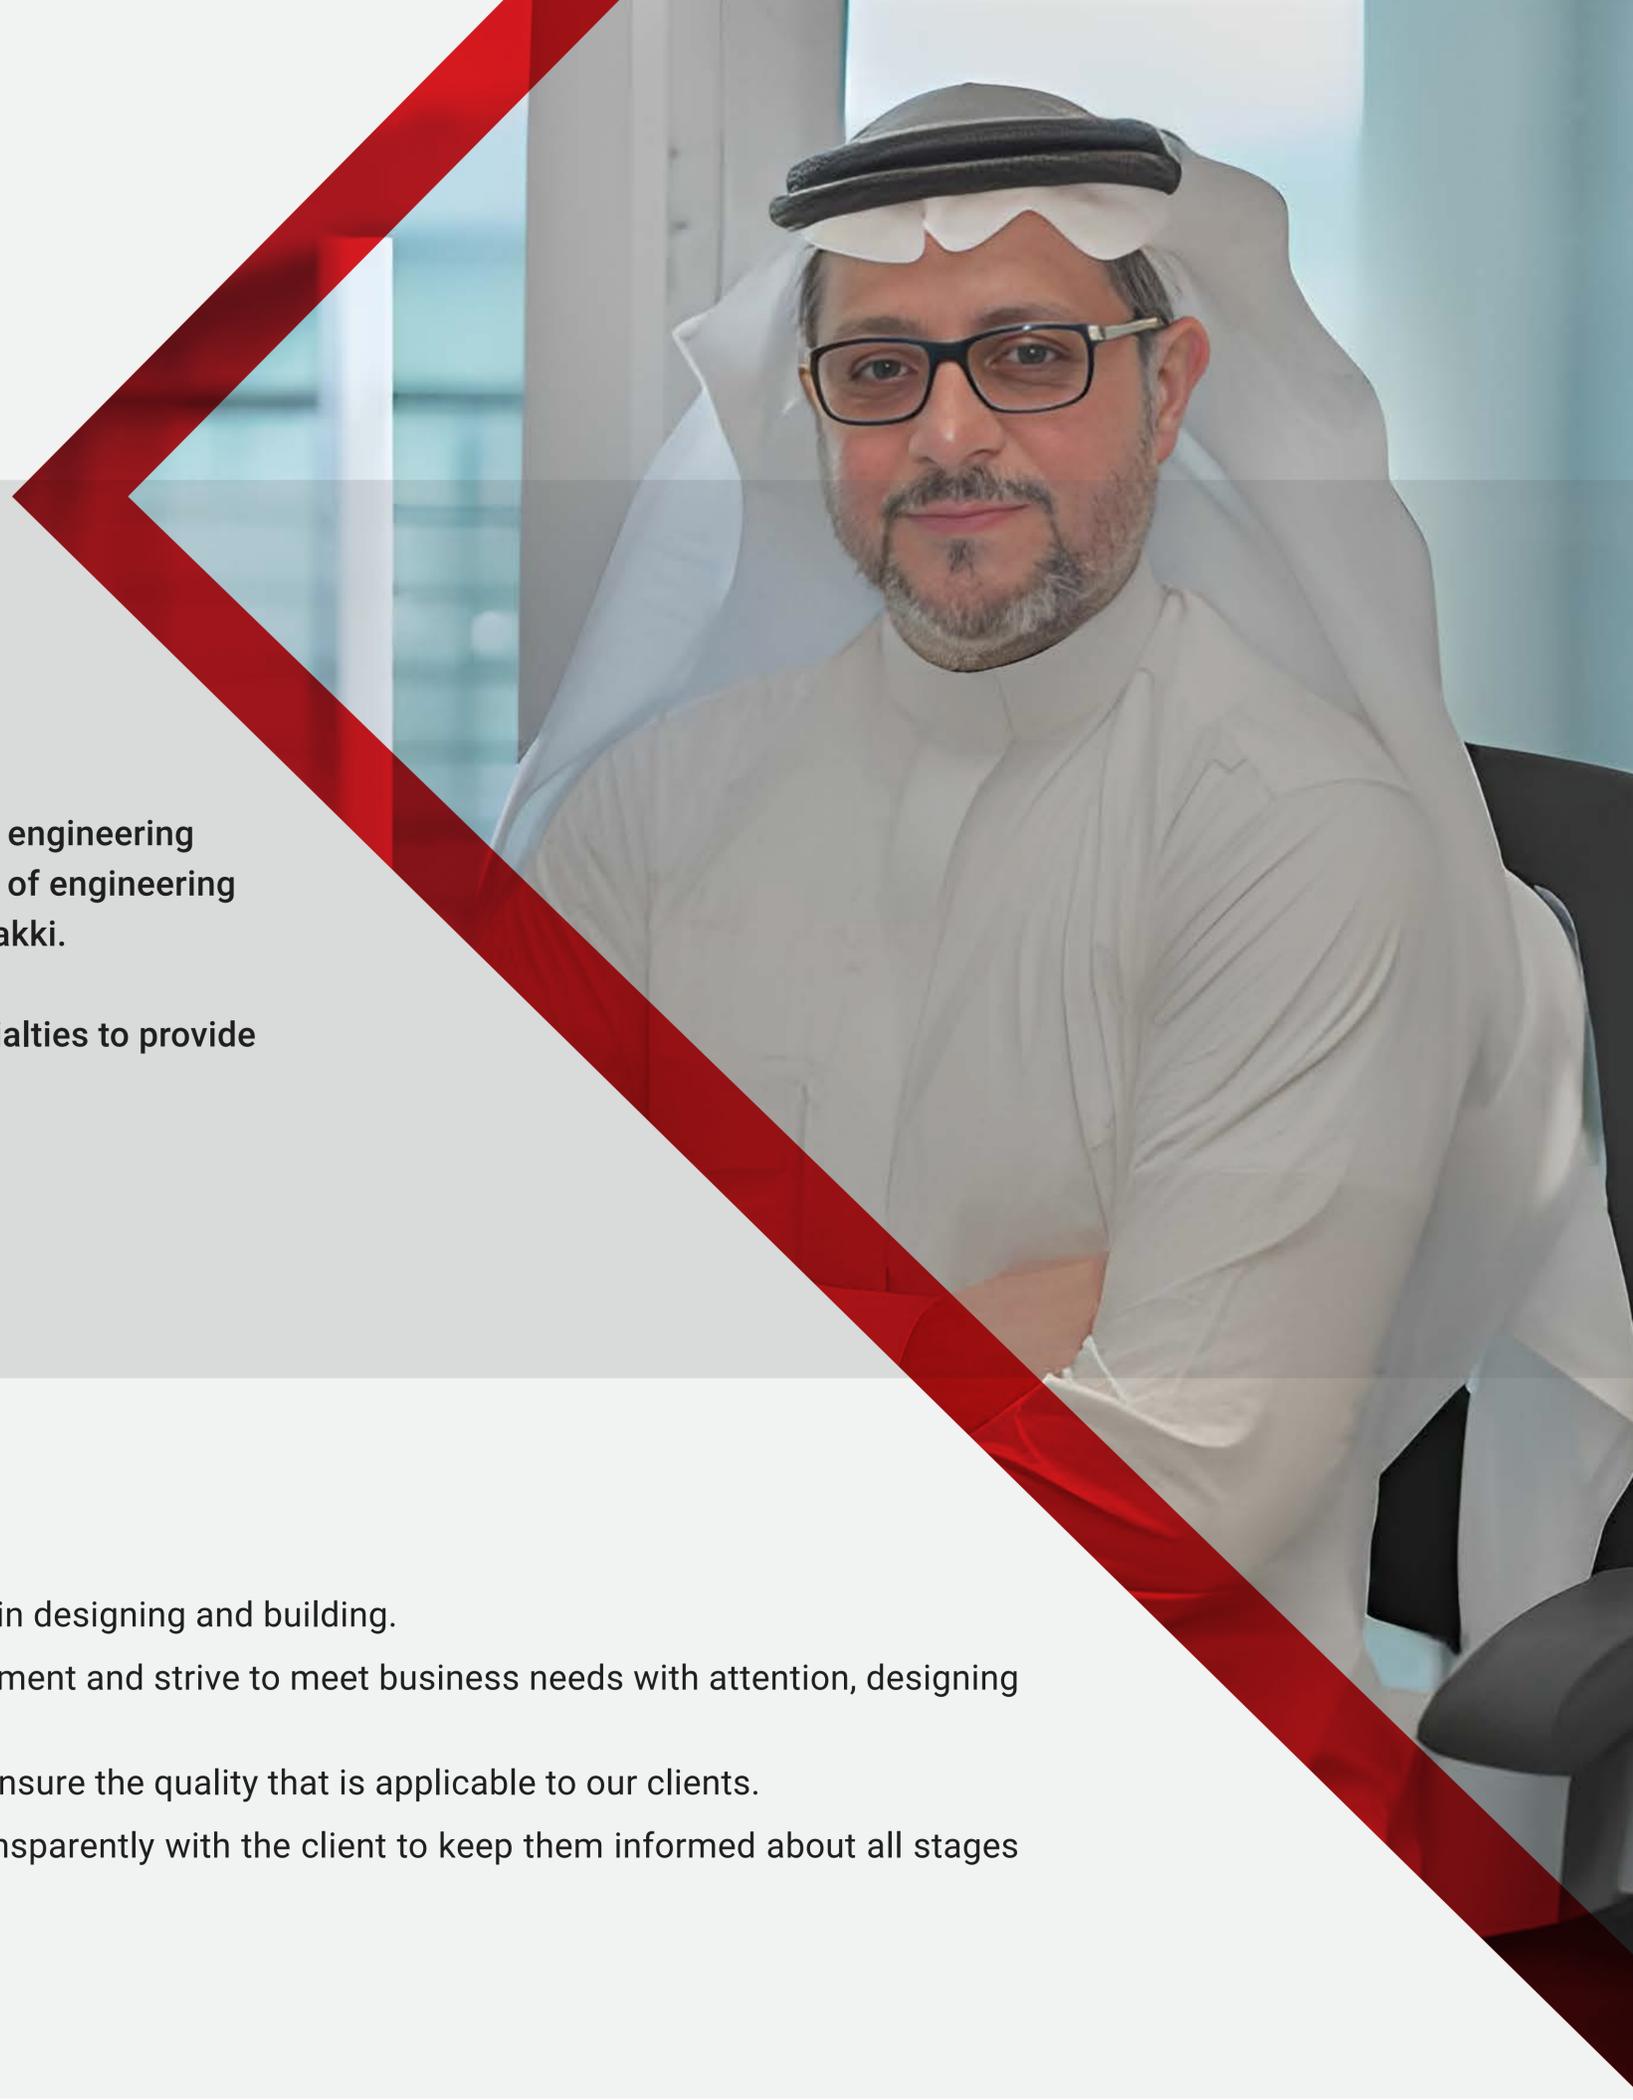

10 years of engineering experience

Moataz Makki Engineering Consultancy (MMEC) is a leading engineering consulting company, established in 2014 to elevate the level of engineering excellence in the Kingdom of Saudi Arabia, led by Moataz Makki.

We have a team of skilled professionals in engineering specialties to provide high-quality solutions.

- We believe in building trust and exceeding expectations.
 - Our values are the basis of every project we undertake in designing and building.
 - We foster a culture of continuous learning improvement and strive to meet business needs with attention, designing solutions accordingly.
 - We pay attention to the smallest details to ensure the quality that is applicable to our clients.
 - We strive to communicate 24/7 and transparently with the client to keep them informed about all stages of the project.

MMEC is registered with governmental, semi-governmental, and private entities. Such entities are key players in the Saudi economy.

We are accredited with....
